Topics for Making 5 PowerPoint Slides

1. The book of secrets (Doha, Islamic Museum of Art)
2. Clocks (in the middle east) Islamic Museum of Art
3. Atomic clock (Scientific American, Physics today, Popular science)
4. Science (in Islam, Arab, Middle East) Popular Science
5. Astronomy (in the Middle East) Popular Science
6. Compass (Mecca, Islam, Christianity, Columbus) Principle Encyclopedia
7. Bose-Einstein condensation (Scientific American, Physics Today, Popular Science)
8. Robots Nanorobots (for reservoir surveillance)
9. Enhanced Gas and Oil recovery
10. Archeology, Carbon dating, Middle East, (Scientific American, Popular Science, Islamic Museum of Arts Doha)
11. Tomography, MRI, PET, SPECT (Scientific American, Physics Today Popular Science)
12. Fission Reactors, water nuclear reactor (Scientific American, Physics Today, Popular Science)
13. Fundamental Constants (Scientific American, Physics Today, Popular Science)
15. Grand Unifying theory (Physics Today, Scientific American)
16. The Age of the Universe (Scientific American, Popular Science)
17. Laser, Principle, application (Scientific American)
18. The Qatari North field, reservoir structure, gas field
19. Water, Qatar, Middle East Desalination, Fata Morgana
20. Laser Cooling (Scientific American, Popular Science)
22. The Compton effect
23. Rutherford scattering
24. Bohr atom
25. Franck-Hertz (Atomic Excitation by Electron)
26. X-ray production
27. Stern-Gerlach experiment
